

Stressless®

## AZALEA

*Heavy-weave texture in natural tones, built for lasting durability.*

With a natural premium structure and elegant heavy weave, Azalea ticks all the boxes for high end living. With a stately feel and soft handle, this textured fabric instantly injects an element of grandeur and elevates all furniture categories. Available in neutral shades, which work well in all interiors. The focus on natural materials and neutral tones captures the exclusive feel. Produced in Italy as a sustainable choice, using a high percentage of recycled materials.

<b>ABRASION (MARTINDALE)</b> (Hard wear domestic use 25.000)	100.000

<b>COLOUR FASTNESS WET 4-5</b>	scala 1-5
<b>CIGARETTE TEST</b>	pass

**Composition:** 15% wool, 20% cotton, 25% polyester, 40% polyacryl - recycled fibres in wool, cotton and polyester  
**Price group:** 5

### Maintenance and cleaning

We recommend vacuuming the furniture regularly and wiping the surface with a damp cloth as needed. Remove spills immediately. If stains and dirt cannot easily be removed with a damp cloth use the Stressless® Fabric Care Kit or a cleaning machine for furniture and carpets. Make sure to use as little water and soap as possible. Please follow the machine and cleaning agents instructions carefully. Pilling is a natural occurrence on products which are made of natural fibres, such as wool. The pilling will reduce over time and can easily be removed with vacuuming or a "fabric-shaver".

### Fabrics

We are uncompromising when it comes to fabric quality, and we cooperate with suppliers that manufacture in accordance with strict quality and environmental requirements. If correctly maintained, the fabrics we have selected will help give the furniture a long life. All our upholstery fabrics meet and exceeds the requirements of mobelfakta.no for Hard Wear. To meet Hard Wear requirements, the fabric must pass international tests for durability, light fastness, pilling resistance, fire safety and colour fastness. Tested in accordance with ISO 105-B02 (Light fastness) EN-12947-2, Martindale (wear test), and with ISO 12945-2 (pilling) and ISO 105x12 (rubbing/dye, wet and dry) and EN 1021-1 (Fire safety test).
