

Stressless®

BLOOM

Textured fabric with a touch of nature.

Bloom is a contemporary woven fabric with a distinctive appearance, achieved by blending a variety of coloured yarns and weaving techniques. The textured surface and interplay of colours are reminiscent of rock and forest floors, adding a touch of nature to your home. The colour selection complements leather and plain fabrics beautifully. Bloom is crafted with a high percentage of recycled polyester, is low in maintenance and can withstand hard wear.

Maintenance and cleaning

Fabrics made from synthetic fibers such as polyester, polyamide and acryl have a unique wear resistance, long durability and good light fastness. To help the surface retain its appearance, we recommend that you vacuum the furniture regularly and wipe the surface with a damp cloth as needed. Remove spills immediately. If stains and dirt cannot easily be removed with a damp cloth, a cleaning agent and stain remover from the Stressless® Fabric Care Kit may be used. Due to the construction of the fabric it can snag if sharp objects are used. If snags do occur, carefully push them back into the fabric with a fine but blunt tool. Do not try to pull them out or cut them off.

Composition: 100% polyester – 63% recycled

OEKO
TEX®

Fabrics

We are uncompromising when it comes to fabric quality, and we cooperate with suppliers that manufacture in accordance with strict quality and environmental requirements. If correctly maintained, the fabrics we have selected will help give the furniture a long life. All our upholstery fabrics meet and exceeds the requirements of mobelfakta.no for Hard Wear. To meet Hard Wear requirements, the fabric must pass international tests for durability, light fastness, pilling resistance, fire safety and colour fastness. Tested in accordance with ISO 105-B02 (Light fastness) EN-12947-2, Martindale (wear test), and with ISO 12945-2 (pilling) and ISO 105x12 (rubbing/dye, wet and dry) and EN 1021-1 (Fire safety test).
