

# Stressless®

## MARIGOLD

*Textured wool blend that is soft, strong, and elegantly cozy.*

Marigold is a rich bouclé fabric, perfect for adding a cozy and inviting feel to your home.

Featuring a looped yarn that is tightly woven, elevated and smart, Marigold adds texture and tactility with a soft, warm finish. Crafted with densely woven, Italian wool-blend, this extravagant texture lends itself to recliners, sofas and dining chairs with an abrasion finish that is both practical and durable. This elegant fabric will elevate every home.

ABRASION (MARTINDALE)	90.000
(Hard wear domestic use 25.000)	
PILLING 4-5	scala 1-5

COLOUR FASTNESS WET 4-5	scala 1-5
CIGARETTE TEST	pass

**Composition:** 28% cotton, 25% polyacryl, 19% viscose, 16% polyester, 12% wool

**Price group:** 5

OEKO-TEX®

### Maintenance and cleaning

We recommend vacuuming the furniture regularly and wiping the surface with a damp cloth as needed. Remove spills immediately. If stains and dirt cannot easily be removed with a damp cloth, a cleaning machine for furniture can be used with lukewarm water. Make sure to use as little water and soap as possible. Please follow the machine and cleaning agents instructions carefully. Pilling is a natural occurrence on products which are made of natural fibres, such as wool. The pilling will reduce over time and can easily be removed with vacuuming or a "fabric-shaver". Due to the construction of the Marigold fabric it can snag if sharp objects are used. If snags do occur, carefully push them back into the fabric with a fine but blunt tool. Do not try to pull them out or cut them off.

### Fabrics

We are uncompromising when it comes to fabric quality, and we cooperate with suppliers that manufacture in accordance with strict quality and environmental requirements. If correctly maintained, the fabrics we have selected will help give the furniture a long life. All our upholstery fabrics meet and exceeds the requirements of mobelfakta.no for Hard Wear. To meet Hard Wear requirements, the fabric must pass international tests for durability, light fastness, pilling resistance, fire safety and colour fastness. Tested in accordance with ISO 105-B02 (Light fastness) EN-12947-2, Martindale (wear test), and with ISO 12945-2 (pilling) and ISO 105x12 (rubbing/dye, wet and dry) and EN 1021-1 (Fire safety test).
