

Stressless®

MIRAGE

A modern two-tone textile, made with new technology.

Mirage is a 80% wool and 20% biodegradable polyamide fabric knitted with a two-tone weave which gives a modern look. The yarn is certificated according to BlueSign and Oeko-Tex standards. The Nativa label validates the wool's origin and that animal welfare is accounted for. Mirage is knitted in Norway using 3D technology which allows for greater precision and waste reduction. The cover is washable and replaceable. Please note that in knitted qualities there may be minor variations in color shades. The yarn used is a natural material, and there will be natural color variations in the fibers.

PRECIOUS FIBER

Maintenance and cleaning

We recommend vacuuming the furniture regularly and wipe the surface with a damp cloth as needed. Remove spills immediately. In cases where a damp cloth does not remove the stains, the cover can be machine washed on a wool program (30 degrees Celsius) using a wool wash detergent. Check the care label for a QR code showing how to remove the cover. Pilling is natural on natural fibre products and can easily be removed by vacuuming or by hand. Snags can occur and should be pushed back with a fine blunt tool. Do not pull or cut, this could cause the knit to unravel. We do not recommend impregnation of our wool fabrics.

Fabrics

We are uncompromising when it comes to fabric quality, and we cooperate with suppliers that manufacture in accordance with strict quality and environmental requirements. If correctly maintained, the fabrics we have selected will help give the furniture a long life. All our upholstery fabrics meet and exceeds the requirements of mobelfakta.no for Hard Wear. To meet Hard Wear requirements, the fabric must pass international tests for durability, light fastness, pilling resistance, fire safety and colour fastness. Tested in accordance with ISO 105-B02 (Light fastness) EN-12947-2, Martindale (wear test), and with ISO 12945-2 (pilling) and ISO 105x12 (rubbing/dye, wet and dry) and IMO Part 8 compliant, BS 5852: Part 1:1979 s. 0&1 (Fire safety test).
