## VELARO

A sophisticated, elegant leather with a natural finish and silky touch.

VELARO is a thick, full-bodied leather with an elegant grain and natural look. It is dyed through, with a natural surface that is only slightly corrected and coated. A light embossing mitigates the grain variations on the leather's surface. However, all natural leathers have some grain structure variations, natural marks, and color nuances, which should be expected also on Velaro. Although robust, this leather remains soft and sumptuous to the touch. A thin topcoat protection provides Velaro with some resistance to staining and simplifies cleaning, but Velaro does not have the same heavy-duty quality and durability as Batick.

### FINISHING

Pigmented Semianiline Aniline

### GRAIN

Corrected Full Grain

### TEXTURE

Embossed Natural

### THICKNESS 1.2-1.4 mm

0 mm 2 mm

### PROTECTION

Low High

### SOFTNESS

Low High

### CIGARETTE TEST

pass

### Maintenance and cleaning

Vacuum the furniture regularly and wipe the surface with a damp cloth as needed. Remove spills immediately. If stains and dirt cannot be removed readily with a damp cloth, a cleaning agent from the Stressless® Leather Care Kit may be used.

We recommend that your leather furniture is cleaned and re-protected at least every six months with Stressless® Leather Care products.

### Important to know about leather furniture

The leather for our furniture is a natural material that comes from cattle hides. One characteristic of hide is that it is marked by nature, vegetation, and the care the animal has been subjected to. Each hide is unique in its structure, appearance, nuances and size. Ekornes may use several hides when making your furniture. This, together with the leather's play of colours and natural marks, makes each piece of furniture unique. In time, the leather will age and develop a patina. Although leather furniture can withstand a lot of wear and tear, its appearance will change over the years.

Stressless®

## BATICK

Simple cleaning, excellent utilization properties and a favorable price.

Batick is a corrected grain, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick is resistant to fading, although changes in colour will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilization properties and a favorable price make Batick a safe choice.

Stressless®

## PALOMA

Soft, natural and comfortable look and feel.

Paloma is slightly corrected and treated through a special process that refines its natural grain pattern, creating a unique texture, soft feel, and luxurious body. Grain structure and minor color nuances may vary across the furniture, and natural marks like healed scars and insect bites are also typical on more natural leather qualities like Paloma. We offer a wide color selection in this quality, from single tones to rich, two-tone shades, to suit diverse customer preferences. A light lacquer coating provides some protection and eases cleaning, though it is not as resistant and protected as our Batick leather quality.

## NOBLESSE

First class furniture leather with a natural softness and a unique surface with visible characteristics.

Noblesse is the most exclusive quality leather offered by Stressless®. A full grain semi-aniline, it is dyed all the way through and has only a thin protective topcoat. This enables the leather to retain the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor colour nuances and skin blemishes may also occur. Such individual details may lead to slight variations at different parts of the furniture. Although the topcoat provides a certain level of protection, Noblesse is the most delicate of the leathers used by Ekornes. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to maintain its attractive appearance.
