VELARO

A sophisticated, elegant leather with a natural finish and silky touch.

VELARO is a thick, full-bodied leather with an elegant grain and natural look. It is dyed through, with a natural surface that is only slightly corrected and coated. A light embossing mitigates the grain variations on the leather's surface. However, all natural leathers have some grain structure variations, natural marks, and color nuances, which should be expected also on Velaro. Although robust, this leather remains soft and sumptuous to the touch. A thin topcoat protection provides Velaro with some resistance to staining and simplifies cleaning, but Velaro does not have the same heavy-duty quality and durability as Batick.

Maintenance and cleaning

Vacuum the furniture regularly and wipe the surface with a damp cloth as needed. Remove spills immediately. If stains and dirt cannot be removed readily with a damp cloth, a cleaning agent from the Stressless® Leather Care Kit may be used.

We recommend that your leather furniture is cleaned and re-protected at least every six months with Stressless® Leather Care products.

Important to know about leather furniture

The leather for our furniture is a natural material that comes from cattle hides. One characteristic of hide is that it is marked by nature, vegetation, and the care the animal has been subjected to. Each hide is unique in its structure, appearance, nuances and size. Ekornes may use several hides when making your furniture. This, together with the leather's play of colours and natural marks, makes each piece of furniture unique. In time, the leather will age and develop a patina. Although leather furniture can withstand a lot of wear and tear, its appearance will change over the years.
